

Alanis Sun

Cocoa, FL | 321-750-7281 | yushuangsun36@gmail.com | US Permanent Resident | Bilingual: English and Mandarin Chinese

Professional Summary

Clinical research professional with 6+ years supporting Phase I/II clinical-development programs in a GLP biotech environment, paired with laboratory-operations management experience in early-stage project planning and cross-functional coordination. Brings task and dependency planning, project status reporting, CRO/internal issue resolution, clinical-sample traceability, and bioanalytical testing to a transition toward formal clinical project management.

Professional Experience

Manager, Lab Operations

Akesoe Biologics | Winter Springs, FL | May 2026-Present

- Planned phased work for an early-stage stem-cell project, breaking early phases into tasks, assigning responsibilities, identifying dependencies, and tracking project status in ClickUp.
- Prepared weekly status reports on completed work, potential impacts, next steps, and follow-ups; coordinated cross-functional inputs and resource needs.
- Identified a compliance and resource-allocation concern, researched the issue, and recommended a gap-based assessment approach that led to an internal mock-audit exercise.
- Reviewed 30+ SOP/DCR records and electronic documents, identified documentation and version inconsistencies, and supported documentation and form-completion improvements.
- Supported vendor/equipment evaluation by defining requirements, participating in discussions, reviewing quotations, and comparing options for decision support.

Research Associate I

Vaxxinity | Merritt Island, FL | Oct 2018-Jan 2025

- Supported Phase I/II clinical-development programs in a GLP environment through clinical bioanalytical ELISA work, assay optimization and validation, QC, troubleshooting, sample testing, data analysis, and results/documentation transfer to CRO data teams.
- Supported clinical-sample lifecycle and traceability work for 4,000+ samples through receipt/source-document verification, CRO/internal ID tracking, Benchling records, exception investigation, and coordination on retrieval and return.
- Investigated a CRO calculation/data discrepancy by reviewing assay data and documentation, clarifying methodology, confirming visit-timing interpretation with the internal clinical team, and reviewing corrected CRO output.
- Coordinated assigned technical and data issues across CRO data teams, internal clinical colleagues, sample-management personnel, and supervisors to support documentation accuracy and issue resolution.
- Analyzed assay and titer data in Excel and GraphPad Prism, including cut-point analysis, titer determination, precision assessment, and %CV calculations.

Independent Project

- **Clinical Study Operations Simulation:** Developed a Phase I study timeline and milestone tracker covering dependencies, baseline/forecast variance, delivery health, cross-functional RACI, and governance/escalation workflows.

Education

- **M.S., Biomedical Science, Physiology & Pharmacology** - Chang Gung University | 2017-2018
- **B.S., Biomedical Science** - Chang Gung University | 2013-2017

Certifications

- Google Project Management Certificate - Google, 2025
- Data Management for Clinical Research - Vanderbilt University, 2025

Skills

Clinical Research Support: Phase I/II clinical-development support, GLP documentation, clinical-sample traceability, bioanalytical assay validation and QC, CRO data-transfer support, discrepancy investigation, documentation review

Project Planning & Coordination: Phased project planning, task/responsibility assignment, dependency tracking, project status reporting, cross-functional coordination, issue follow-up, risk identification, vendor/equipment evaluation support

Tools & Analysis: ClickUp, Smartsheet, Asana, Excel, GraphPad Prism, Benchling, SharePoint, Microsoft Teams

Publications

- Co-author of a 2024 *Nature Medicine* publication related to Vaxxinity/UB-312 active immunotherapy work.
- Co-author of a 2025 *Communications Medicine* publication related to Vaxxinity/VXX-401/CGRP work.
