Professional Summary

Clinical-development professional with 6+ years supporting Phase I/II clinical trials in a GLP biotech environment, bringing clinical-sample traceability, source-document verification, quality-focused documentation, CRO coordination, and discrepancy resolution. Adds project planning, dependency and timeline tracking, status reporting, and cross-functional follow-through from laboratory operations while transitioning into formal clinical study start-up support.

Professional Experience

Manager, Lab Operations

Akesoe Biologics | Winter Springs, FL | May 2026-Present

- Planned phased work for an early-stage project by breaking early phases into tasks, assigning responsibilities, identifying dependencies, and tracking status in ClickUp.
- Prepared weekly status reports on completed work, potential impacts, next steps, and follow-ups; coordinated cross-functional inputs and resource needs.
- Reviewed 30+ SOP/DCR records and electronic files, identified documentation/version inconsistencies, and supported document and form-completion improvements.
- Documented a corrective response to an SOP-compliance issue through the established CAPA process and submitted it to QA for review; designed and conducted an internal mock-audit review, documenting findings and proposed actions for management review.

Research Associate I

Vaxxinity | Merritt Island, FL | Oct 2018-Jan 2025

- Supported Phase I/II clinical bioanalytical work in a GLP environment, including assay optimization/validation, QC, sample testing, data analysis, and results/documentation transfer to CRO data teams.
- Worked with 4,000+ clinical samples and temporarily supported a Phase I sample workflow through receipt/source-document and identity verification, CRO/internal ID traceability, Benchling records, exception investigation, and coordination with the sample manager.
- Investigated a CRO data discrepancy by reviewing assay data and documentation, clarifying methodology, confirming visit-timing interpretation with internal clinical colleagues, and reviewing corrected CRO output.
- Coordinated assigned technical/data issues across CRO data teams, internal clinical colleagues, sample-management personnel, and supervisors to support documentation accuracy and issue resolution.

Independent Projects

- **Clinical Study Operations Simulation (independent):** Built a simulated Phase I timeline and milestone tracker covering dependencies, status/forecast variance, delivery health, and issue escalation/governance workflows.

Education

- **M.S., Biomedical Science, Physiology & Pharmacology** - Chang Gung University | 2017-2018
- **B.S., Biomedical Science** - Chang Gung University | 2013-2017

Certifications

- Google Project Management Certificate - Google, 2025
- Data Management for Clinical Research - Vanderbilt University, 2025

Skills

Clinical Research Support: Phase I/II clinical-development support, GLP documentation, clinical-sample traceability, source-document/identity verification, CRO coordination, internal clinical-team coordination, discrepancy investigation, document review, ICH-GCP documentation exposure

Project & Quality Coordination: Task/dependency planning, timeline tracking, status reporting, cross-functional coordination, issue follow-up, risk identification, SOP/DCR review, CAPA documentation, mock-audit findings and recommendations

Tools & Analysis: ClickUp, Smartsheet, Asana, Excel, GraphPad Prism, Benchling, SharePoint, Microsoft Teams

Publications

- Co-author of a 2024 *Nature Medicine* publication related to Vaxxinity/UB-312 active immunotherapy work.
- Co-author of a 2025 *Communications Medicine* publication related to Vaxxinity/VXX-401/CGRP work.
