Cocoa, FL | 321-750-7281 | yushuangsun36@gmail.com
US Permanent Resident | Bilingual: English and Mandarin Chinese

Professional Summary

Clinical-development professional with more than six years supporting Phase I/II research in a GLP biotech environment, combining clinical-sample traceability, regulated documentation, CRO/internal coordination, and discrepancy resolution with project planning, status tracking, and cross-functional follow-through. Experienced in ASCVD clinical-development support and academic oncology research, with a focus on expanding into clinical project and study operations.

Professional Experience

Manager, Lab Operations

Akesoe Biologics | Winter Springs, FL | May 2026-Present

- Planned phased work for an early-stage stem-cell project by breaking early phases into tasks, assigning responsibilities, identifying dependencies, and tracking progress in ClickUp.
- Prepared weekly status reports covering completed work, potential impacts, next steps, and follow-ups; coordinated cross-functional inputs and resource needs.
- Reviewed 30+ SOP/DCR records, identified version inconsistencies, and supported process improvements; documented a CAPA response for QA and mock-audit findings for management review.
- Supported vendor/equipment evaluation through requirements definition, discussions, quote review, and option comparison.

Research Associate I

Vaxxinity | Merritt Island, FL | Oct 2018-Jan 2025

- Supported Phase I/II clinical-development programs in a GLP environment through bioanalytical study work, and supported ASCVD clinical development.
- Worked with more than four thousand clinical samples; supported a Phase I workflow through receipt/source-document verification, CRO/internal ID traceability, Benchling records, exception investigation, and sample-manager coordination.
- Investigated CRO calculation/data discrepancies and coordinated assigned technical issues with CRO data teams, internal clinical colleagues, sample-management personnel, and supervisors through corrected-output review.
- Prepared assigned assay-result/data-transfer deliverables and supporting documentation for CRO data teams; reviewed underlying data and records to support discrepancy follow-through with internal clinical colleagues.

Independent Projects

Portfolio: [GitHub](#)

- **Clinical Study Operations Simulation:** Planned a simulated Phase I timeline and milestone tracker covering dependencies, status/forecast variance, and issue escalation.
- **Clinical Trial REDCap Simulation:** Designed a mock Phase I EDC with longitudinal CRFs, visit/event mapping, sample traceability, and data-quality controls.

Education

- **M.S., Biomedical Science, Physiology & Pharmacology** - Chang Gung University | 2017-2018; academic oncology/MDR research (not clinical-trial experience)
- **B.S., Biomedical Science** - Chang Gung University | 2013-2017

Certifications

- Google Project Management Certificate - Google, 2025
- Data Management for Clinical Research - Vanderbilt University, 2025

Skills

Clinical Research & Documentation: Phase I/II and ASCVD clinical-development support, GLP documentation, sample traceability, receipt/source-document verification, CRO/internal coordination, discrepancy investigation, ICH-GCP exposure

Project & Process Coordination: Task/dependency planning, timeline/status tracking, deliverable follow-up, cross-functional coordination, risk identification, SOP/DCR review, CAPA documentation, process improvement, vendor/equipment evaluation

Tools & Analysis: ClickUp, Smartsheet, Asana, Excel, GraphPad Prism, Benchling, SharePoint, Microsoft Teams, Notion, REDCap (independent simulation)

AI & Productivity: ChatGPT, Codex, AI-assisted research synthesis, documentation, workflow organization

Publications

- Co-author of a 2024 *Nature Medicine* publication related to Vaxxinity/UB-312 active immunotherapy work.
- Co-author of a 2025 *Communications Medicine* publication related to Vaxxinity/VXX-401/CGRP work.
