

Alanis Sun

Cocoa, FL | 321-750-7281 | yushuangsun36@gmail.com
US Permanent Resident | Bilingual: English and Mandarin Chinese

Professional Summary

Clinical-development operations professional with 6+ years supporting Phase I/II programs in GLP settings, bringing regulated document/data review, sample traceability, CRO/internal coordination, and discrepancy follow-through. Adds project planning/status tracking, process-gap identification, QA-facing CAPA documentation, and cross-functional coordination and process improvement in clinical-development operations.

Professional Experience

Manager, Lab Operations

Akesoe Biologics | Winter Springs, FL | May 2026-Present

- Planned early-stage stem-cell project phases by mapping tasks, responsibilities, dependencies, and status in ClickUp; prepared weekly project-status reports on progress, impacts, next steps, and follow-up.
- Reviewed 30+ SOP/DCR and electronic documents, identified version inconsistencies and process gaps, and supported improvements to document naming, date formatting, and form-completion requirements.
- Designed and conducted an internal mock-audit review, examining evidence and documenting gaps/findings in a report; proposed CAPA/NDR actions for management review and recommended a gap-based approach to compliance/resource risks.
- Documented a corrective response to an SOP-compliance issue using the established CAPA process and form, then submitted the documentation to QA for review.

Research Associate I

Vaxxinity | Merritt Island, FL | Oct 2018-Jan 2025

- Supported Phase I/II clinical-development work in a GLP environment; across assigned work, supported 10+ bioanalytical assays, 4 clinical trials, and 4 preclinical studies.
- Worked with 4,000+ clinical samples; in a Phase I workflow, supported receipt/source-document verification, CRO/internal ID traceability, Benchling records, exception investigation, and sample-manager coordination.
- Investigated CRO calculation/data discrepancies and coordinated assigned technical issues with CRO data teams, internal clinical colleagues, sample-management personnel, and supervisors through corrected-output review.
- Prepared assigned assay-result/data-transfer deliverables and supporting documentation for CRO data teams, reviewing underlying data and records during discrepancy follow-through; assay %CV was consistently <20%, typically ~0-5%.

Independent Projects

Portfolio: [GitHub](#)

- **Clinical Study Operations Simulation:** Planned a simulated Phase I timeline and milestone tracker covering dependencies, status/forecast variance, and issue escalation.
- **Clinical Trial REDCap Simulation:** Designed a mock Phase I EDC with longitudinal CRFs, visit/event mapping, sample traceability, and data-quality controls.

Education

- **M.S., Biomedical Science, Physiology & Pharmacology** - Chang Gung University | 2017-2018; academic oncology/MDR research (not clinical-trial experience)
- **B.S., Biomedical Science** - Chang Gung University | 2013-2017

Certifications

- Google Project Management Certificate - Google, 2025
- Data Management for Clinical Research - Vanderbilt University, 2025

Skills

Clinical Development & Documentation: Phase I/II clinical-development support, GLP documentation, SOP/DCR/e-document review, source-document verification, sample traceability, CRO/internal coordination, data discrepancy investigation

Project & Quality Process Coordination: Task/dependency planning, project/status tracking, cross-functional follow-up, process-gap identification, mock-audit reporting, CAPA documentation for QA review, process improvement

Tools & Analysis: ClickUp, Smartsheet, Asana, Excel, GraphPad Prism, Benchling, SharePoint, Microsoft Teams, Notion, REDCap (independent simulation)

AI & Productivity: ChatGPT, Codex, AI-assisted research synthesis, documentation, workflow organization

Publications

- Co-author of a 2024 *Nature Medicine* publication related to Vaxxinity/UB-312 active immunotherapy work.
- Co-author of a 2025 *Communications Medicine* publication related to Vaxxinity/VXX-401/CGRP work.
